

HANSA WORLDS 2016

EQUIPMENT INSPECTION

Equipment Inspection will take place by the crane.

Hansa Classes (2.3, 303, Liberty)

All boats and keels will be weighed and mast length checked.

Boats are to be dry. Sails are to be removed from masts. Sails will be checked (including size of sail numbers and National Letters)

Rudder boxes and booms need not be removed.

Servo assisted boats do not need to remove servo motors, and hard wired controllers (*see class rule C2.1(d)*).

Batteries must be removed.

Regatta marks will be placed on the hull, keel, rudder blade(s), mast(s).

SKUD18

All Skuds are to be presented with mast unstepped.

Forestay length will be checked.

Sails will be checked (including colour, size of sail numbers and National Letters).

Any Skud team wishing their boat and keel to be weighed must separate the bulb and keel.
